Academic marker: JUVEN REBOUD

**Feedback:**

The slides are clean and informative. The presentation is ordered well providing a good story.  
The depth of technical content is satisfactory but critical thinking was more superficial.  
What is the rationale for doing SWT for some and not for others.  
Some slides are rushed and don't have much information in them.  
Answers are a bit limited relevance.

Feedback:

- Excellent scene setting.
- Why not swap for more techniques?
- New techniques interesting - but were they new?
- significant over-pur.
- Overall excellent.
